

COVID Vaccination Certificate

Due to regulations introduced on 29th November 2021, licensed premises (among others) will be required to check that visitors possess one of the following:

- **Proof of Full Vaccination by various methods**
 - Covid Cert NI App (download on smart phone, produces unique QR code indicating positive vaccination, confirmed by reader at the venue)
 - Secure QR code on paper, provided by Department of Health, by calling 0300 2007814. Same process as above, just on paper instead of smart phone.
 - Vaccination card with photo ID – this is an interim arrangement.
- **Negative Lateral Flow antigen test within the previous 48 hours**
 - Must be registered on NHS site as a negative test. Email or text alongside photo ID is required. Lateral flow tests are available for free at community pharmacies or on the gov.uk website.
- **Previous positive test for COVID-19, between 30-180 days old**
 - Proof of previous test, either email or text, alongside photo ID is required

No exceptions can be made due to this and no refunds will be provided

Please note that under current regulations, a COVID vaccination certification (or other allowable proof) is required to stay or dine with us.
